

LMN MEDICAL STORE

Design plan: Store Desktop Application	Document Name: Project Plan	SWD/Form No.3
Effective Date: 3/07/2017	Version: 1	Page No.1/2

Project plan:

1. Project Details:

➤ Name of the Client:

LMN General Medical Store

➤ Date of Project Plan: 28/02/2017

➤ Project Vision/Objectives:

Develop a management system application which store information about drugs, customers, retailers, distributors and manage them, also have enough necessary functions for the store's owner to work effectively, such as statistic bill, calculate revenue, import, export inventory,... . Automatically processors like updating quantity, alert out of stock, discount depend on type of customer.

➤ Scope:

Medical store, retails shop, surgery, distributors.

➤ Our understanding about the Client organization:

LMN is a small medical store which buys drugs from many distributors and sells them to customer (Retail buyers or another store) with two type: Selling prescription drugs and wholesale – retail.

➤ Project with Organization with Responsibilities and Authorities:

- Nguyen Nguyen Phuoc: Team leader – Division works, coding.
- Moc Luu Truong: Team member – Import tasks, coding.
- Loi Truong Phuoc: Team member – Import tasks, coding.

2. Project initiation/Requirement Documents

3. Deliverable

Using guide book, setting guide book, Project document.

4. Project dependencies

- Lacking of time.
- Illness and family busy.
- Members slow process or out of the project.

5. Major project prototype

6. Quality plan

➤ Review Activities

At least 3 times a week, each meeting there is a check for each member in group to review processing, help to solve hard trouble,....

➤ Testing Activities

Ask for some help from a real medical store and then, test the project with their advices (Doctors or retailers).

➤ Backup and recovery strategies

Each member store a copy of project in their own computer and one in their mail drive.
